

October 2016 Newsletter: Announcing New Website

Hello Friends!

Pacific Coast Lumber (PCL) now has a brand new web page and we are excited to have you take a look! This presents an updated style with the goal of ease of use and to be as informative as possible. It now includes galleries of pictures of our custom products, so be sure to check it out. We will be making updates to the site as

we have new material to add. A big thanks to Debra O. Star Intuitive Consulting for making this an outstanding website. Please feel free to call PCL anytime (805) 543-5533 or come by the shop at 445 Prado Road T#3 in San Luis Obispo.

Chips Ahoy!!! High Grade Wood Chips for Sale

Our very large slash pile has been chipped onsite. We have about 900 yards of near playground quality chips available at \$17 per yard. Our neighbor

Fresh Wood Chips at PCL

Central Coast Landscape Products can load and deliver for an additional fee. Discounts are available for orders over 40 yards.

At Pacific Coast Lumber, we strive to make the highest and best use of our local resource, our urban forest, and to keep as much out of the landfill as possible. These chips are from the

unusable portions of the logs we have at our yard and are the most environmentally friendly and ecological chips available with the smallest carbon footprint. Come by our yard at 445 Prado Road to have a look at the chips and place an order!!!

Critter Creek Ranch in Creston Uses PCL Lumber

John and Michele R. have been building an incredible old western town on their ranch for the last 10 years or so. John has been getting wood from Pacific Coast Lumber for years as his main source of material to achieve the authentic rustic feel. Check out [their website](#) for more details.

Incredible Old Western Town

We love seeing how our customers are using these materials. [Email your pictures](#) and we may include them in an upcoming newsletter.

Book-Matched Walnut Slab

This is a beautiful book-matched walnut slab we created. A book-matched slab is constructed by taking two slabs milled from the same log and jointing them as mirror images. After jointing these slabs to produce an over 4 feet wide by 10 feet long surface, we ran it through our planer to get a uniform top surface. This is a unique capability at Pacific Coast Lumber. This is now being used as a dining room table for Kate G and her family. For more details, call anytime (805) 543-5533 or stop by our shop at 445 Prado Road T#3 during normal business hours.

Custom Planed 4'x10' Book-matched Walnut Slab.

Recently Milled Slabs

Below are 2 gorgeous slabs we recently milled into our inventory. The first slab is a sample large volume of the walnut we acquired last month from Templeton. There are pin burl effects that just dances off the slab. We have over 80 walnut logs in inventory with some over 9 feet long and over 3 feet wide.

The second slab is sycamore with a sweeping arch that would be perfect for a bar or unique counter top. It is 9 feet long, ranged from 24 inches to 36 inches wide and is 3 inches thick.

Come by our shop at 445 Prado Road T#3 during normal business hours and have a look at our vast slab and log inventory to get some great ideas for your next project!
