

Urban Forested & Eco Friendly
Since 1996

September 2016 Newsletter

Hello Friends!

Pacific Coast Lumber (PCL) specializes in creating lovely and stylish products using mainly locally grown urban forested wood. We have an eye toward outstanding design to help bring your dream project to reality. We go from soup to nuts (i.e. raw

Stylish deck and patio furnishings

wood to finished product) and all points in between to allow you to find the right product at the right price for you. Our unique lumber selection is the best on the central coast for urban forested lumber. Let us help design your dream today. Please feel free to call anytime (805) 543-5533 or come by the shop at 445 Prado Road T#3 in San Luis Obispo.

In This Edition...

- Walnut, Walnut, Walnut!!!
- Slash Pile to be Chipped in Early October
- 11' Eucalyptus Table and Benches
- Planing Wood up to 20' x 5'
- New Web Site Coming Soon
- Affiliates

Walnut, Walnut, Walnut!!!

New walnut log deck

We have procured a large volume of 60+ year old black walnut butt logs from a 50 acre walnut orchard that was recently removed on the west side of Templeton. These trees had lived their useful and

productive lives and now that land will be used for wine grapes. Some of these walnut logs are 36-48" in diameter and up to 8+ feet long. The grain in these logs appears to be quite spectacular. We have one full sized burl that is just over 4' in diameter. Burls yield very unique shapes and ring patterns and are highly prized for their exquisite beauty.

Come by the shop and have a look at this amazing black walnut inventory. We will be happy to custom mill it for your dream project.

Slash Pile to be Chipped in Early October

Pacific Coast Lumber will periodically chip our slash pile and sell these playground quality chips to our customers for landscaping uses. The slash pile is comprised mostly of unusable cuts of logs that are not part of an

PCL's current slash pile

deliverable order. Essentially these are the scrap portions of our milling process. This is the typically known by many of you as the "free" pile that anyone can take from to use for firewood or miscellaneous projects with scrap wood.

We are anticipating about 600 yards or so of high quality landscape chips. Stay tuned for next month's newsletter for more details on the final quantity of chips and pricing.

11' Eucalyptus Table and Benches

We recently were commissioned to build this beautiful 11' long table from Eucalyptus planks. Eucalyptus is typically a twisty and unstable wood, but for this project we joined the planks with a steel rod to keep the surface from warping. What a stunning rustic table!

We are happy to design and build any table and benches from our inventory of urban forested lumber. Call to discuss anytime (805) 543-5533 or stop by our shop at 445 Prado Road T#3 in San Luis Obispo.

Stunning rustic Eucalyptus table.

Planing Wood up to 20' x 5'

We have the capacity to plane any wood surface that is up to 20 feet long and 5 feet wide. This is a unique capability we have with our Lucas mill which allows us to save time and provide the best quality product on a large scale material, such as this 18' x 4' oak slab. We plane our own material and we provide planing services for any wood you bring to us. For more details, call anytime (805) 543-5533 or stop by our shop at 445 Prado Road T#3 during normal business hours.

Custom planed 4'x18' Spanish oak slab. We have several in inventory!

New Web Site Coming Soon

We are in the process of updating our website. Thanks to Mental Marketing for rebranding PCL and Debra O. Star, Intuitive Web Design for bringing this new website into existence. Stay tuned for the unveiling in next month's newsletter!
